## CAREER PROJECTS

### Designer / Front End Developer

Transformation Life Church

- Chaired the re-branding of the company identity using graphic design principles to produce over 10 key marketing components; increasing youth attendance from 15% to 25% in 90 days
- Wire-framed the website architecture using UI/UX principles in Adobe Photoshop to design a clean, user friendly website interface
- Launched websites using Cpanel. Code and developed a responsive website using HTML and CSS to override Wordpress defaults; reducing page load time over 30%

### Designer / Front End Developer

Various Clients

- Coordinated closely with clients and delegated contracted hires to assist in designing, developing and launching over 5 intuitive websites and branding packages for small startups
- Wrote HTML and CSS code to develop website mockups that gained over 5 new clients by conveying unique user-centered design solutions
- Created budget estimates, client-proposals, and project plans; achieving an on-time delivery rate of 100%

### Designer / Supervisor

Multicultural Student Services - SHSU

- Lead coordinator of events. Implemented principles of UI/UX, SEO, steganography, javascript, and HTML/CSS to develop fun interactive event landing pages and other custom event materials raising the average event attendance from 0 to over 90 attendees per event in the 1st year
- Supervised, hired, and managed a team of over 12 event coordinators and 2 graphic designers in a fast-paced agile team environment; coordinating over 17 successful campaigns in 2 years and managing a budget of \$25,000 per year
